Student Remarks

One of the Best course offered in our department! Sirs approach to teaching is how all courses should be taught, he proceeds to next topics only when all doubts are cleared, and sir himself is eager to learn if any doubts require them. In every class never noticed when the 50 minutes got over as the topics and the way they were taught was very engaging. Thanks for offering the course, learnt a lot from it and will continue to do so by following this field because of the course.

i liked the course. learnt lot about course. sir is also very good ??.

So far the best faculty who really wants to give full time to student and met with all the commitments. great discussion in the class.

Great course by great prof

Class discussions were too much sometimes and derailed attention. I kept losing track and at one point was only attending for the attendance. New topics brought me back into some sync. Probably the issue is with my short attention span, please dont take this too seriously. The efforts put into the course are visible, guest lectures were very good.

super prof
