Overall, the course provided a good value-addition to my knowledge/skill-set NOTE:Qn 1 to 9 - Instructor evaluation : Qn 10 to 14 - Course evaluation Student Remarks very well explained ?? ?? It would have been better if sir would teach a bit slow and repeat critical points more than once even if we would stay quiet. Many a times students stay quiet when he understands nothing but sir probably assumed he/she understood everything. The teaching was very good and every topics were explained nicely. best course and professor in iitm for a freshman. One of the best learning experience so far. **Excellent lecturer** The subject was very enthusiastic. Offline labs helped a lot too Everything was good except the timetable of the labs. Most of the portion for the week is covered on Thursday and there is lab just after the class. So instead of trying and solving the given problem I was scared of not understanding properly, running out of time etc., if the timetable is designed so that we will get atleast a day to analyse what is said in class it will improve the learning process and confidence. it was great I found this course very fun. The rooms allocated dint have proper AC and sound system and that led to some discomfort but overall the academic part of the course was awesome.
